From the Publisher... Our condolences to Ernie Wesolowski and family on the death of Ernie's father recently.

We can't seem to find DDXD-S editor Duncan Shaw, and so reporters living in the DDXD-S area should send their loggings to either Dave Braun or Bill Hale until we can determine Duncan's status.

DX Time Machine

From the pages of DX News:

50 years ago ... from the Sept. 18, 1943 DXN: It was noted that some scheduled DX programs might not be aired because the Flight Command in their district has decided to order area stations off the air at certain times.

25 years ago ... from the August 28, 1964 DXN: John W. Hoogerheide, Marquette, MI bought a used GPR-90, which he reported as excellent on SW but miserable on MW ... Dave Schmidt, Chester, PA reported receiving his HQ-180 back from Hammarlund repaired for \$16.

10 years ago ... from the September 26, 1983 DXN: Ron Schatz's list of operating Cuban medium-wave stations covered four pages of DXN ... the "deceitful, cunning, logical, and devious" team of Bruce Conti, Glenn Cooper, Bill Grant, and Phil Sullivan won the find-the-sticker contest at the 50th annual NRC convention in Enfield, CT.

(continued from page one)

Also, contributors to Don Erickson's DDXA column should hold up on mailings to Don until I can clarify the status of the column with Don.

Our hats are off to Ron Musco for a fun-filled Labor Day weekend at Enfield this year. Two tentative bids for next year's convention have been received, for Miami and Nashua, NH, but BOD Chairman Ken Chatterton says that bids are still being accepted and should be in his hands by about the first of October.

DXChange ... Bill Swiger - (304) 842-4635 (6-10 pm EDT) is offering a Realistic TRF 12-655 for \$20, a TRF 12-656A for \$20, and a DX 440 for \$75. Dave Schmidt (see p. 21 for address) and partner are offering HQ-180 and R390/R390A repairs at a flat hourly rate plus parts and shipping; contact him first before shipping.

Publications ... Mike Hardester passed along information on *Radio San Diego*, which has a \$1.00 cover price and a 12-issue subscription price of \$12.00. Contact RSD at 7720 El Camino Real, Suite 179 - LaCosta, CA 92009 ... R. Netherlands offers *Towards On Target*, a listing of its programs; contact them at P. O. Box 222 -1200 JG - Hilversum, The Netherlands, for more information ... Daniel Camporini - Casilla #68 (1605) Munro - Buenos Aires, Argentina is offering two C-60 cassettes, one with ID's of various South American SW and MW stations, the other of Mexican, Central American,

and Caribbean ID's for US\$ 8.00 or 10 IRCs each ... Rocky Stone sent us a copy of a traveler's radio guide "from Baltimore to the Florida Keys"; contact Bremer Concepts - 217 Ivan's Rd. - Preston, MD 21655 for more information.

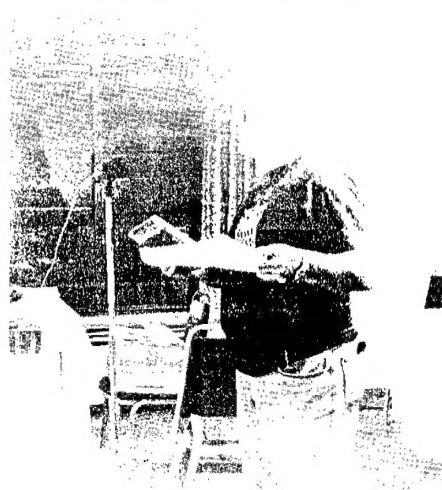

Welcome to these new members ... Roger Gosling, Paget, Bermuda; Mark A. Burns, Terre Haute, IN; Larry Back, Middletown, OH; Les Locklear, Gulfport, MS; Theodore R. Hall, Louisa, VA; Robert Schroeder, Watauga, TX; Charles Tubbs, Wilmington, DE; Bill Spann, Mooresville, IN; and Mark Seiden, Miami, FL. Our membership count is at about 709 and rising!

NRC members anxiously await the start of bidding at the annual auction during the convention: Hugh Montgomery, Chris Cuomo, Bruce Conti, Frank Merrill, Joe Fela, Eliot Straus, Mark Connelly, and Roger Giannini.

Convention host Ron Musco gives final instructions before the auction: "Awright, you guys, 'Move it, move it' means take the bid before they get a good look at the stuff and change their minds; 'Sell it, sell it' means they got a good look; 'Hurry up, hurry up' means Giannini looks as if he's going to leave the room!"

Possible future convention host Bruce Conti practices his delivery on convention station WNRC-87.9. The station featured previously unaired records, unedited commercials (for Wezliwiz Beer), and unbelievable disk jockeys.

APPLICATIONS/GRANTS FOR NEW STATIONS

None

APPLICATIONS FROM EXISTING FACILITIES

630 KIAM AK	Nenana:	powers to 10000/3200
1280 KDKK OR	Eugene:	night power to 1500 watts (amends existing application for 700 watts night)
1370 KGNO KS	Dodge City:	reduce night power to 230 watts
KFIR OR	Sweet Home:	to 720 kHz with 1000/250 U1

GRANTS TO EXISTING FACILITIES

920 KQLO NV	Reno:	reduce day power to 4600 watts, relocate transmitter site
1200 WAGE VA	Leesburg:	modify existing CP for 10000 watts day power to 5000 watts day power (present power) and change antenna to U1
1370 KSHY WY	Cheyenne:	relocate transmitter site

OTHERNESS

910 WFVR GA	Valdosta:	silent station is ON THE AIR (station now carries traveler information from the Florida Welcome Center)
1040 KEZF OR	Beaverton:	new station is ON THE AIR, relays programming from KRVC-730 Medford, OR
1050 WAMN WV	Green Valley:	station is now here (ex-1040) and is temporarily operating with 500 watts due to technical problems with their 1430 watt transmitter, this per announcement monitored by your editor while passing through on I-77, IDs as "Christian Radio 10-50 for the two Virginias"
1160 WWON MI	Fenton:	silent station (ex-WCXI) is ON THE AIR
1180 KKAR NE	Bellevue:	station is swapping calls and programming with its newly acquired KOIL-1290
1220 KRGQ CA	Fowler:	station is SILENT (the FCC recently reinstated KRGQ's expired CP to move to 1210 with 10000/370 U5, perhaps this silence is to help facilitate this change)

- 1230 KBZB AZ Bisbee: license of this long-silent station has been CANCELLED by the FCC and the call DELETED, this less than a month after a letter from the licensee to a reporter claiming they were about to return to the air, a moot point now.
- KKBR MT Hardin: station is SILENT
- WKBO PA Harrisburg: although this is still the licensed call for this station, they are using it only for the legal IDs and all other times call themselves "WHP-1230" with all CNN News
- 1270 WSPR MA Springfield: despite reports to the contrary (see last issue) this station was still SILENT as of the end of August, this from a reporter who lives 15 miles from their transmitter and should certainly be able to hear them if they were on.
- 1290 KOIL NE Omaha: silent station is ON THE AIR, getting ready to swap calls with KKAR-1180
- 1340 KBRS AR Springdale: license has been REVOKED by the FCC, station has been silent since 1990 without FCC permission and repeated requests for information by the Commission have gone unanswered, call is also DELETED
- WNBS KY Murray: silent station is ON THE AIR
- 1450 WWKG NC Spring Lake: silent station is ON THE AIR
- 1470 WIJK AL Evergreen: station is SILENT due to lightning damage to their transmitter
- KGNG MO Brookfield: station is SILENT
- 1480 WODX FL Marco: silent station (ex-WMIB) is ON THE AIR
- KMEM NE Lincoln: silent station (ex-KIMQ) is ON THE AIR
- 1490 WVIX MS Vicksburg: silent station (ex-WOTA) is ON THE AIR
- 1530 WCEG MA Middleboro: station is SILENT (and may not be able to conduct their 9/6 DX Test)
- 1560 KLLG IA Council Bluffs: station is SILENT

MEDIUM WAVE RAMBLINGS

- ❑ Have received a couple of reports from south of the Red River. See SPECIAL and unIDs. Also, new NRC member Mark Burns of Terre Haute, Indiana checks in with his initial, but he promises not last, report to DDXD. Welcome aboard, Mark! And it was good to get a phone report from Barry Wasyluk from Winnipeg. He got a new KIWA loop and bagged a new station as well as a new state the first night. I got all the details from him, except what he was using as a receiver! Send more reports, Barry!
- ❑ Picked up from FidoNet... The numbers (ratings) for Larry King's afternoon show nationwide are horrible. Stations are dropping him like crazy. Surprised??... rumor has it that TalkNet is dropping Dr. Harvey Reuben's program, and will join the Mutual bird after Jim Bohannon's show at night... KGO-810 is being simulcast over KGOE-105.5 Eureka, California. Seems Eureka has been a slight dead spot in KGO's night coverage [can't figure that as their lobe goes right up the coast. Maybe the signal "skips" right over the area? - Ed.]... and WVNE-760 has been granted a nighttime power of 1 point 5 watts. Don't know if they intend to use it.
- ❑ It's like 1968 all over again in the City By The Bay. See 610 in SPECIAL.
- ❑ Okay. Okay! OKAY!! Last issue I noted that it was issue #210, six years of DDxDs from here. That should have been seven years. My math requires some work, no?
- ❑ Shawn Axelrod took a holiday to the left coast and we are blessed with the handy work off a DC-9 heading west, plus mucho loggings with his feet on the ground. GY results next issue.
- ❑ Recent DX reports received here have taken up to seven days (postmark to mailbox) to arrive. I have inquired at the post office as to howcum?, but all I get is a shrug. I think it's the Postal Service's way of practicing Mail Dominance. So, mail your DX reports when they're 'hot' and beat these deadlines for DDXD-N for the first few issues of Volume 61. Post early:

Issue 1	Sep 18	Issue 4	Oct 9

- 560 KVOK AK Kodiak - 7/15 - Now operating from their new transmitter site. Same format, AC days (not just oldies), talk evenings & overnight. G. Gordon Liddy 6-9 PM local. Also simulcast on KJJZ 101.1 FM. And, both KVOK and KJJZ are | KENI-550 Anchorage from 9 PM to 6 AM. (RO-AK)
- 610 KFRC CA San Francisco - 8/15 0730 - Heard with a simulcast of their FM (oldies). Lots of KFRC singing jingles 'tween songs and the old KFRC San Francisco jingle with a spoken AM & FM drop-in between CLs and city for a legal ID. Change from BBD. Must have just made the change recently. [Ed.-ID]
- 630 CBXZ-BC Tofino - 8/18 - Has gone silent. Now on FM. (SA-BC5)

- 1160 **WWON MI** Fenton-Flint - 8/24 - First day on the air with black gospel music. All live programs. Heard no ads yet. Slogan is *Power Gospel 1160*. Sked is 0600-2400. Ex: **WACY, WFEN**. (TS-MI)
- 1480 **KGCX-MT** Sidney - Silent as of 8/3, along with their sister FM station **KGCH** 93.1, per newspaper article in the *Williston Herald-Leader* forwarded here from Donald J. Vojta of Chicago. Seems they signed off on 8/3 and failed to return to the air the next day. Article forwarded to HQ for possible inclusion in future Issue of **DX News**. [Ed.-ID]
- 1490 **CBPN-BC** Horseshoe Bay - 8/18 - No signal heard. Silent? No signs on highway. (SA-BC3)
- CBPO-BC** Squamish - 8/20 - Not heard, may be silent. No signs on highway. (SA-BC3)
- 1500 **KBRN-TX** Boerne - Silent, per article in 8/8 *TV Now* magazine from the *San Antonio Express-News* forwarded here by Jim Boehm. No other details in the article, just that the . . . station went out of business. This would be the second 1500 in Texas to leave the air recently. **KBRN**, if you'll remember, is the station that was knocked off the air for a while a couple of years back due to a Black Snake's getting fried in their transmitter. [Ed.-ID]

UNIDs and UNID HELP

- 530 **UNID ??** - 7/28, 7/29 Midnight and 8/16 Midnight - Somebody relaying **WWRV** New York with SS music on both sides of all three IDs: *WWRV New York City operating on 1330 kilo Hertz*. It isn't a harmonic. (BBMc-TX)
- 530 **UNID ??** - 8/23 0525 - Poor with male & female SS talk. Also music, possibly contemporary religious, with SS vocalists. Loop NE-SW. Also heard about the same time on 8/16. (JW-OR) [The reception of possibly the same station in both Texas and Oregon poses a very interesting unID, indeed. I first thought of CIAO, as they are ETH, so I called them. The gentleman in Toronto to whom I spoke said (in very broken EE) they did not carry any **WWRV** programming, but to call the number in Buffalo about **WWRV** on 530! Naturally, he didn't know the number. Maybe a pirate? Maybe something new? Is there anybody else who has been hearing **WWRV**-1330 on 530? Let us know! What's the scoop? - Ed.]
- 1010 **UNID ??** - 8/9 2300 - Poor with SS talk and mentions of *Utah*. (SA-MB1) [Probably (?) **KTUR** Tooele. Any *Beehive State* members out there? [Ed.]
- 1290 **KOIL? NE** Omaha - 8/11 0635 - Good with C&W music, *Metro area* and lots of *Omaha* talk. New *K(7)103* IDs. (SA-MB1) [Last issue's **AM Switch** noted 1290 would be simulcasting 1180, but the Log sez 1180 is *News/Talk*. And I can't find an FMer in or around Omaha close to 103. Looks like wait-and-see on this one, Shawn - Ed.]

NEWS AND VIEWS

From Jeff Kitz: "I will note that the WMAQ/WPTF/CBF/WOR/WHAM jamming has appeared to decrease or disappear at times lately. It is almost possible to listen to WHAM again. Is Fidel running out of money or fuel for his generators?" Jeff also mentions that he just received a QSL from the WSMI-1540 test in January.

Thanks to Ron Bailey for obtaining a QSL from WKMT-1220-NC for a report I had made on May 10 of this year. It seems that a lot of my notes from DX over the last couple of months seem to be UNIDs. Maybe the oncoming season will help that. One note from my last submittal to the *Formats* column, WECY-DE-1280 is still AC//FM. I think that the list I sent Tony must have carried through a typo from the list in a local paper.

I have included some format notes made on a recent trip out I-68 between I-70 (Hancock, MD) and Morgantown, WV. I also made note of some TIS', many of which were reported by Chris Cuomo last issue, unlisted stations or different/additional information is shown in *Other Stuff*.

Heard an interview on *Spectrum 9/5* with Ron Musco, John Bowker and Mark Connelly from the Convention. Great job guys!

Upcoming deadlines are September 18 and then every Saturday until the Christmas break.

SPECIAL

- 560 WFRB** MD Frostburg - 8/20 - This guy has REL during the day, was also noted from home //FM with CW on 8/23. (DB-MD)
- 590 WMBS** PA Uniontown - 8/20 1032 - This station was all talk during the day when I heard it. (DB-MD)
- 620 WHJB** PA Greensburg - 8/20 1034 - This station also noted with talk format. (DB-MD)
- 1270 WSPR** MA Springfield - This station is still silent but was reported as being on the air in the "Otherness" section of *AM Switch* in Vol. 60, Number 29. (JB-MA)
- 1340 WEPM** WV Martinsburg - 8/20 1326 - Noted with CW and West Virginia "Metro News". (DB-MD)
- 1360 WWLG** MD Baltimore - 8/28 1613 - Noted with this call, ex-WHLP, during a Saturday afternoon request show, *Your Saturday Serenade*, ID during the period I listened was only as "WLG". (DB-DE)
- 1390 WFBL** NY Syracuse - 8/8 0033 - Still WFBL. Loud with *New York State Health Commission* PSA and "you're listening to the music of your life on AM Stereo 1390 WFBL and AM-1050 WSEN..." Many WFBL IDs. WHEN-AM/FM bought WKFM-FM, which owned WFBL. Who owns WFBL if it is in fact still WFBL? What happened to WSEN-1050? How could WSEN stay on the air at night with the QRM from CHUM/WEVD/XEG? (JK-VA) (For the answers to these and other questions, stay tuned to... Seriously, I noticed that WFBL is still their old selves also. I don't think the dual ID with WSEN necessarily means that WSEN is on, they probably just have one set of tapes, although I had not seen (or heard) that they were paralleling WFBL - db)
- 1390 WKLP** WV Keyser - 8/20 1125 - Ad for a state college, and a business on Route 220 South into NOS. (DB-MD)
- 1450 WTBO** MD Cumberland - 8/19 1611 - Noted with NOS on trip through town. (DB-MD)
- 1490 WTCS** WV Fairmont - 8/20 0835 - Noted with Oldies format, "Good times and great oldies" slogan, West Virginia "Metro News", which seems to be the state news network heard on many stations. Also mentioned "AM Stereo". (DB-MD)
- 1510 WSSH** MA Boston - 8/27 - Went silent again, call to station provided no further info, as personnel were "not at liberty to say" anything about what's going on. (BC-NH)
- 1560 WFSP** WV Kingwood - 8/20 0843 - Oldies format, ads for businesses ranging over a large area, including Oakland, MD and Morgantown, WV. (DB-MD)

UNID AND UNID HELP

- 680 UNID** 8/27 2300 - ID as "680 News". Frequent mentions of Kim Cambell and Canadian Parliament. Too much WRKO for an ID. (JB-MA) (CFTR-ON, which is now all news - db)
- 780 UNID** 8/29 2001 - Noted good signal with a *Moody Blues* song, then abruptly gone at 2003. (DB-DE)
- 830 UNID** 8/27 1940 - Baseball game between Montreal and Houston. I don't think this was a CBS game, the announcers sounded more local. Does CFJR carry the Expos? (DB-DE)

850 WJAC

PA Johnstown - 7/13 2330 - This is a guess at BG-DC's UNID. He may have been listening to IRN programming on WJAC mentioning a commercial for Canadian truckers? Or they were telling truckers where to tune in on their radios for something? Any IRN stations in Canada? I doubt WRMR gets across Lake Erie to the north very well, since they bomb in here many nights - so, they will not have any Canadian commercials? WJAC beams in better to the northeast, but may be heard in Washington also? They jam out KOA in western NY. (JK-VA)

920 UNID

5/24 0039 - Heard "...country's very own..." FM WXXK(?)". (JK-VA) (This is WTCW, Whitesburg, KY. They relay "FM-104" according to the *AM Log*, which is WXXK-Whitesburg according to the *FM Atlas*, just over the VA border - db)

1160 UNID

PA? - 8/31 2025 - Pirates and Dodgers baseball game so I assume it's the Pirates network. Too many other stations over/under to get any ID. (JB-MA) (The Pirates list published this summer in *DX News* shows WCCS-PA the only station on 1160 which carries them - db)

1160 UNID

8/31 2055 - Mentions of soul music and ID as "FM-?". Playing UC music, temperature was 77 degrees. (JB-MA)

1190 UNID

8/15 0103+ - On the air for some reason jamming out WOWO on peaks (which is very hard to do here with WOWO's powerful signal) and CW music. Assume that this is either WBDY or WANN? (JK-VA)

1360 WHLP

MD Baltimore - Vol. 60, No. 28 is probably BG-DC's UNID, since many people are hearing them on a regular basis. They are really doing a number on WSAI which used to come in clear here. I just don't think it was WNNJ-NJ. (JK-VA)

1430 UNID

5/30 0057 - Fair, over/under WCKN, with SS "Radio Nueva Vida" (New Life Radio). Is this WPES Ashland, VA on 31 watts? (JK-VA) (Probably WNNJ-NJ which is now SS - db)

1460 WKDV

VA Manassas - I would suspect that this is the off frequency station mentioned in Vol. 60, No. 29 "...since about July 19", but am not located near enough to Northern Virginia to know for sure. WPRW had some "very old iron", which was described to me by a former employee. (JK-VA)

1460 UNID

8/23 2023 - Heard only "We've got North Carolina..." then faded, then back for intro into *Gil Gross Show*. Probably WCRY, but haven't seen them listed with this program. (DB-DE)

RADIO STATION WAVL

0000 to 0800 ELT Box 277, Apollo, Pa. 15613

710 CKVMt

PQ Ville-Marie - 8/8 0057 - Weak FF programming under WOR, sounds TeleFrench. No sign of Cuba. (JK-VA)

730 WPAL

SC Charleston - 8/15 0200 - Doing well, with 100 watts and "In a great city, there is a great radio station, WPAL" then UC. (JK-VA)

740 WWNZ

FL Orlando - 8/15 0148 - Good over regular KRMG, after CBL's sign off, with "All day, every day, you're only 10 minutes away from traffic on 740 WINS news, WWNZ Orlando". Then sports call in show, "Sports Entertainment Network 1-800-777-2987". Similar format as WINZ-940. I hope this will not be a regular, since I like picking up KRMG. (JK-VA)

830 WCCO

MN Minneapolis - 8/15 0205-0220 - Off the air, leaving nothing in the background, then back on with announcer explaining to a caller that the transmitter had been hit by lightning and they were back on with full power and the backup transmitter. (JK-VA)

980 WFHG

VA Bristol - 5/24 0030 - In with "WXBQ 96.9 FM" IDs over/under WWRC/WTRY. (JK-VA)

990 WEEB

NC Southern Pines - 8/8 0252 - "The Sandhills Best" with what sounded like an ID as "990 WEEB/1460 WCRY". Who is WCRY? (JK-VA) (WCRY, Fuqua-Varina, NC - db)

1160 WPIE

NY Trumansburg - 8/8 0241 - With Governor Cuomo and NY State promo, and "WPIE 1160, your piece of the pie", over WJJD/WCCS. Doing well with 310 watts! Station #10 heard on 1160 here in VA. (JK-VA)

1170 WWVA

WV Wheeling - 8/25 0000+ - The "50,000 watt Wheeling Feeling" off the air this morning leaving a very weak KVOO and an UNID SS (WAVS?), in WJJD/WHAM splash. First time in ages. (JK-VA)

1230 WNOR

VA Norfolk - 5/30 0123 - Good with "FM-99" IDs, then rock music. (JK-VA)

1240 WROV

VA Roanoke - 5/30 0120 - Good with "From the 50's, 60's and 70's, we have got the best oldies on 1240 WROV". (JK-VA)

WUCO
1270AM
15151 U.S. Rt. 36 East
Marysville, Ohio 43040

- 12
 1310 WSSJ NJ Camden - 5/30 0012 - "You're super station for sports, WSSJ", "S-S-J" musical jingle, then NOS/AC, for NJ #6 in VA. (JK-VA)
 1340 WEPM WV Martinsburg - 5/30 0108 - In briefly with sports and "WEPM" IDs. (JK-VA)
 1390 WHOT OH Youngstown - 8/15 0022+ - Thought this was WFBL from the signal level, with "Saturday Evening Dance Party...more of the music you remember on AM 1390...AM 1390 the music of your life, we are WHOT Youngstown". Over WFBL/WEED/WXTC. (JK-VA)
 1450 WOL DC Washington - 5/30 0052 - Good with UC and "on the station with the best variety of hits, Magic 102.3". (JK-VA)
 1500 WTOP DC Washington - 9/5 0123-0215+ - Noted off on rare SP, one UNID Spanish left but could not get ID. No sign of any domestics. (DB-DE)
 1530 WCKY OH Cincinnati - 8/9 0141 - Another 50kw blowtorch rare silent period. Possible KFBK or KGBT in background, nut too much WWKB/KXEL QRM to tell. (JK-VA)

1600 TO 2400 ELT

- 830 WWMO NC Eden - 6/24 2200 - Poor with sign off and *America the Beautiful*. WCCO in later. (JK-VA)
 930 WEOL OH Elyria - 8/20 2302 - Complete surprise with WFMD nulled. ID with minor league baseball. No sign of WBEN. New. (JEK-MD)
 990 WCMF NY Rochester - 8/31 2229 - Good with rock music //FM 96, over CKIS "Oldies 990". (BC-NH)
 1150 CKMO ON Hamilton - 8/29 2057 - Good with "Oldies 1150" IDs, official three day weather forecast and ten in a row, over CJRC. (BC-NH)
 1250 WLEM PA Emporium - 8/15 1942 - Good with weather forecast, "it's 78 in Emporium", FM ID "W..Y", no AM ID. (DB-DE)
 WTAE PA Pittsburgh - 8/29 2130 - Fair with "News Talk 1250" ID and ESPN Sportsradio, over WMTR. (BC-NH)
 1260 CIHI NB Fredericton - 8/30 2321 - Heard ads by Toronto Blue Jay personnel, sounded like national-type ads, "Blue Jays manager for ALS in Canada", then "you're listening to C-HI". (DB-DE)
 1270 CFGT PQ Alma - 8/31 2147 - Good with ID "CFGT La Station Country", FF: CW. (BC-NH)
 1400 CJFP PQ Riviere du Loup - 7/23 2215 - Has been fairly regular here this summer with 5 kw. (JEK-MD)
 1420 WRCG GA Columbus - 5/20 2248 - Good with promo for WRCG's 65th birthday along with mentions that WRCG is Columbus' oldest radio station. "You've always got a friend...WRCG." (JK-VA)
 WHK OH Cleveland - 8/31 2129 - Good with ID and Bruce Williams talk. (BC-NH)
 1430 WTTT MA Amherst - 8/31 1920 - Good with NOS, ID between songs. (DB-DE)
 1580 WSRF FL Ft. Lauderdale - 8/6 2115 - Good with "Triple Shot Weekend" rock music, //WSHE 103.5 FM. Never heard AM calls, is this still WSRF? (BC-NH)
 WLIM NY Patchogue - 8/10 2035 - ID in and out real fast. (JW-PA)
 WWOE NC Camp LeJeune - 8/10 1938 - In well off and on from 1938 with ID then mention of *Morningstar Radio in Jacksonville* at 1959. I think this was the station I mentioned in earlier report. (JW-PA)
 WILA VA Danville - 8/8 2014 - ID and vital statistics at sign off. Very clear at that moment. (JW-PA)

OTHER STUFF

WHOK Incorporated

- 530 TIS DE ?? - 8/28 1109 - Tape loop with alternative roads to use to get into Rehoboth Beach and Bethany Beach. No ID during fifteen minutes of listening. (DB-DE)
 530 WNVY507 MD Baltimore? - 8/19 1354 - Heard near the intersection of I-97 and the Baltimore beltway, weak, reporting on the "Baltimore Metro Interstate System". (DB-MD)
 530 WNFL337/WNFL338 MD Washington County - 8/19 1513 - As reported by Chris Cuomo last issue, three transmitters are in this county giving tourist info and Potomac River info. WNFL338 is loudest at Williamsport, near intersection of I-70 and I-81, the middle transmitter does not give an ID, and WNFL338 is near Hancock, (I-68/I-70 junction). Listened to these guys both ways for twenty minutes or so, and I still couldn't tell you positively whether the third letter of the ID is F, S, or X! (DB-MD)
 530 KN(I?)X MD Westminster - 7/12 1150 - Temporary TIS for Main Street roadwork. Definitely not 10 watts. (JEK-MD)

- 13
 530 TIS MD ?? - 8/19 1546 - Loudest at mile marker 70 on I-68, short tape loop of weather forecast for Shenendoah Valley, Potomac Highlands, eastern panhandle of West Virginia and Webster Springs. Same tape heard again at Cumberland at 1610. Also heard 8/20 at 1222 with mention of Garrett County and NOAA weather ID of WXM73. (DB-MD)
 1610 WPCT627 MD Baltimore - 8/19 1404 - Very loud at the intersection of the Baltimore beltway and I-70, again for the "Baltimore Metro Interstate System". (DB-MD)
 1610 WNXPA50 DE Newark(?) - 9/4 1230 - Loud just east of Newark with ID as "Turnpike Information Station". (DB-DE)
 1610 TIS VA Shenendoah National Park - 8/19 1523-1625 - Weak starting 10 miles from Park, then of course strong at entrance to Shenendoah National Park, Skyline Drive. Fading at mile post 6 and gone by mile post 10 on Skyline Drive. (HH-VA)

Welcome to new IDXD reporter John Ridge. JR-NY is already reserved, so we will know John as JTR-NY! Also welcome to Gary Froemming. Gary has been listening to shortwave since 1974, but he's going to try his hand at MW. Joe Kureth is also with us this month, with a logging from Ocean City, MD. In 1972 my girlfriend dumped me while we were in Ocean City. Hope your luck was better than mine! An amazing number of reporters for August!

In case you're wondering ... I rarely use abbreviations because of how difficult it is for me to read DX publications written in other languages. I'm trying to make it as easy as possible for someone out there with limited English skills to understand our IDXD loggings!

PAN-AMERICAN DX

526 BAHAMAS Stella Maris 8/20 0148 - ZLS modulated-CW beacon good at times through Turks & Caicos-530 slop. [MC*MA]

530 TURKS AND CAICOS ISLANDS R. Visión Cristiana, 7/28 0250 - Fair, with Spanish talk and music of a religious nature. At 0300 heard clear WWRV ID. Now on! In fact, this was easily heard around 0400 6/26 at the IRCA convention DXpedition. We thought CIAO was doing something unusual. Boy was I big-time wrong. This 6/26 transmission must have been one of their first. It only shows ignorance is not bliss. New for me. [SA-MB] 8/3 0800 - "WWRV, New York, AM 1330" English ID heard at this time, music and Spanish followed at fair level during remainder of this recording period (to 0808), with modest QRM from nulled TIS. All night, 24 hours? [RHM-WA]

8/13 0453-0508 - Good with Gospel music and religious talk by man in Spanish. Male DJ talks to women on phone. Read prayers, music interludes and Spanish Gospel music. ID by man in English as "This is WWRV, New York; by woman in Spanish at 0500 as "Ésta es Radio Visión Cristiana", back to

LITHUANIA: A daytime coverage map of Baltic Radio, Palanga (648 kHz, under construction), shows major lobes NNW and SWW. If the nighttime lobe is the same, that NNW lobe is aiming right at us! (based on coverage map reprinted in ARC 8/13/93)

MADEIRA: RDP Madeira 1125 has been on the air from Porto do Fargos since 3/30/93. [EBU via BDXC in ARC 8/13/93]

PORTUGAL: 630 Coimbra 1 kW Antena 1, ex R. Comercial 828; 666 Valença 10 kW ex-567, Viseu 10 kW ex 693, Covilha i kW ex 1562, all RDP Antena 1; 720 Guarda 10 kW ex 558 RDP Antena 1, 1035 Lisboa R. Comercial 120 kW, ex 135 kW; 1170 Canidelo 10 kW R. Comercial ex 1575. [EBU via BDXC in ARC 8/13/93]

ST. LUCIA: The 625 kHz transmitter is probably not on the air. During several visits to the island, made by a British DXer, the station was not heard. The local newspaper only lists the 660 kHz transmitter. [BDXC in ARC 8/13/93]

SWITZERLAND: DRS1 1566 transmitters at Monte Ceneri and Sarnen, both 300 kW, were taken out of service on 3/31/93. [EBU via BDXC in ARC 8/13/93]

VATICAN CITY: Vatican Radio 1530 is now 450 kW (ex-600 kW). [EBU via BDXC in ARC 8/13/93] (Maybe they'll reconsider if the new VOA causes reception problems in target areas! - Jim)

FM DX

Digest

DX on the FM band, from April through September

Mike Hawk, NØSY

10212 P St.

Omaha, NE 68127-2130

Welcome to the last FMDXD for '93! Thanks to all who have contributed this year, and I look forward to next season. For those of you looking for more FM DX coverage throughout the entire year, I suggest looking into the Worldwide TV and FM DX Association (WTFDA). They publish a fine monthly magazine called *VHF-UHF Digest*. Write to PO Box 514, Buffalo, NY 14205-0514 for more info.

I've received a few questions concerning remedies for overload problems. If you experience overload and are using an RF amplifier, don't use it. An amplifier may appear to strengthen some signals, but it increases overload approximately twice as much. If you aren't using an amp, an attenuator will likely be needed. Don't be fooled by thinking less gain will mean less DX. By using even 5 dB of attenuation, overload and mixing products could be cut 10 dB! For a long time I was speculative of this, but by having a variable attenuator in line, all that needs to be done is an occasional adjustment of a knob. Radio Shack offers a 20 dB variable attenuator, by the way.

Lastly, don't forget to check FM occasionally this winter. Sporadic-E is possible from about Thanksgiving to early January. There are many times a few mid-winter tropo openings as well. Meteor scatter is possible during the Geminids in mid December, and the Quadrantids in early January. Auroral scatter is possible anytime in the northern latitudes, but during this stage of Cycle 22, geomagnetic storms are comparatively rare.

Highlights for this fm DX season: Tentatively hearing three Puebla, Mexico FMs, along with E-skip openings into FL, where, for the first time ever, I was able to receive a station on one side of one of my most stubborn locals (as far as splatter is concerned), WKBQ-106.5. I was able to receive WAVK-106.3. I was also able to hear something on 107.5 for the first time (WQBA-Miami ["QBA" = Cuba]), and something other than WCVQ on 107.9 (WIRK).

That was capped off by the column editor's visit to this QTH on 7-27 (along with Ernie Wesolowski), and giving them a tour of KCFV-89.5, which is still silent as of this writing.

The Lowlights: This was the worst E-skip season here since '83! Let's hope we get a strong tropo opening this fall!

ERIC BUENEMAN (NØUIH) - 631 COACHWAY LANE - HAZELWOOD, MO 63042-1347
 -/-/-/-/-/-/-/- Greetings from High & Dry Hazelwood! The flood of 93 hasn't affected this location in the least and I even volunteered my time on the communications end of the flood relief, volunteering my time with the St. Charles County Emergency Operations Center. The worst of the flooding in MO occurred in the St. Louis Metro area and the local AM/FM stations have done a good job with the emergency. The best was done by KMOX-1120 which aired flood info for areas within 100-150 miles of St. Louis. The only station affected was KASP-1380, who lost their day site for about 12 hours over the 4th of July weekend as flood waters surrounded its site at Chouteau Island, IL (11 miles NE). Local KIRL-1460 wasn't bothered. Their site is in a flood plain near Hazelwood. In listening to the DX Audio Service tape, here is what's going on regarding AM Stereo in this area. KUSA-550 & KFNS-590 are running stereo despite their formats, KUSA is CNN Headline News & KFNS-590 is Sports. KMOX-1120 has some music offerings on the weekends (mostly big band and easy listening) and does something interesting with the home games of the Cardinals and Blues, using one announcer in the left channel and the other in the right! WESL-1490 is the only station in C-Quam stereo that has music fulltime, Gospel/Contemporary Christian. KIRL-1460 is listed as being in stereo in the National Religious Broadcasters station guide and WRTH-1430 has stereo equipment but it isn't heard in stereo on my TM152, which only receives the C-QUAM system, they may be using the Kahn system. As of right now, there are about 7 million receivers in the marketplace which will receive C-QUAM stereo. The standard is being held up in court still by Leonard Kahn who said his copyright was used by Motorola. Only 2 others tried AM stereo in this area, KUSD-690 tried the C-QUAM system for only a week before pulling the plug, citing poor listener response while WTBV-1260 used this system during 1989-90, dropping it when it changed formats. KXOK-630 was considering the system as early as 1982 but didn't begin testing until 1987 when it returned to a music format. This continued even after going talk for a 2nd time. The stereo is off now even though they are again playing music with a simulcast from KXOK-FM 97.1. KGDL-1380 (now KASP) began testing in AM Stereo in 88 but dropped it when it went to satellite fed programming. In news from this area: KHAD-1190 is now back on with a CW format. WEW-770 is still BBD/NOS, not the kids format, going for an older audience than WRTH. KXOK-630/97.1 has terminated its lease with KASP-1380/WKBQ-106.5. Not surprised to see WAZX move from 1400 to 1550 in Metro Atlanta to improve the WAZX signal, the old 1400 facility reverts to its old WYNF calls. WYNX-1550 never verified a report from this locale but did with a report from the Woodstock, GA location. The shakedown of Atlanta's religious broadcasters continues! 73

BRUCE REYNOLDS - 1617 CORTE DE MEDEA - SAN JOSE, CA 95124
 -#-#-#-#-#-#-# Greetings. It has been many months since my last MUSING as DX time has been meager since FEB. due to various factors including a push to complete a book. It should be published in a matter of months by St. Martins Press under the title "Thailand and Japan's Southern Advance 1940-1945". Also, nearly a month was spent in Bangkok, visiting my in-laws and doing some research. A handful of new ones have been added to bring the log to an even 430 stations. Included are 3 call changes: KCBC-770 (ex-KPLA), KKTR-1430 (ex-KBOS) and KWSW-790 (ex-KFLI) plus KRRS-1460 in Spanish 9P 5/24, XEHF-1370 9P 5/25 and KLO-1430 over KFIG in the null of local KNTA at 5:15A 7/30. Local KEEN-1370 remains silent. Veries since last report have come from the KNAK-DX TEST and KRSV. The fall semester at San Jose State figures to be quite busy but I hope to find some time for DXing. My personal thanks to all the hard working editors and others who contribute to DX NEWS and the NRC! I trust the convention was a success. 73

 ----- I have been away from these pages for too long. A combination of more travel for my job combined with an annoying AC line buzz for the last 3 years that has made listening nearly useless. Countless investigations just confirm the fact that there was in fact something causing it, but never found. In April, we moved to the NW part of Loudoun County, further away from WAGE who showed up everywhere. The best part of the move is that I am now on about 11 acres of land, maybe big enough to string a long wanted beverage antenna. I would like to hear from any 'beverage expert' who I can discuss this with. I have a number of publications on beverages but they more or less deal with why & how it works, I have yet to see one that really explains for the layman simple construction techniques. Every guide I see is not clear as to length, how to ground, etc. If anyone can help, please write me with your phone number and I can call you back. Also, I need to know where you can get wire in the lengths needed. I also have an order in for the new Kiwa Loop. I will report on it after I get it as the season progresses. I hope this year of CPC tests are as good as they have been in the past. Good luck in the upcoming season to all!

DAVE SCHMIDT - P O BOX 11502 - WILMINGTON, DE 19850
 -+---+---+---+ Thanks to the interests of my good friend LEO GLUCK from Newark, DE, I was able to get a ride to the Enfield convention this year. As usual, it was great to see all again and be involved in the auction (ask TONY FITZHERBERT about the great tapes he got on IDing Spanish stations, especially the ones in his area!). My hat is tipped to RON MUSCO for the enjoyable time! One honor which

I was involved in was presenting ELLIOT STRAUS his verie from a March report to WYRK 810, the first verie which I HAND DELIVERED to anyone! His reports and follow ups were on the desk at the studio which I recently cleaned up in the latest visit. At the convention, I called WCEI-1460 regarding the DX TEST which was listed for the Sunday morning while in Enfield. The announcer had no record of any special announcement to be aired (the station is automated and must have a number coded in to run any source) the whole morning so I'd say it was a good bet it wasn't on. Our weekly schedule is just around the bend so we would appreciate some reports to help keep things going through the season. A big welcome to rejoined member DAVE FOX! We are going to try to get this column out on a computer disk so if in the future the type changes, you will know why, we will try to make the print larger (not limited to the Smith Corona wheels!). 73

Network listings for team sports stations

Here are some corrections to my last Minor League Baseball column reported by Bob Karchevski, Jeffrey Less, Doug Smith, and Monty Montgomery.

- 1) The Pacific Coast League is "AAA", not "AA".
- 2) The Tacoma team is the "Tigers", although the team is owned by the Oakland Athletics.
- 3) Add Calgary, AB to the AAA Pacific Coast League.
- 4) Modesto, CA in the "A" California League is on 860 KTRB-CA.
- 5) The Toledo Mudhens (AAA International League) are carried on two stations, neither of which is in the Toledo market area:

900 WFRO-OH
 96.1 WMTR-OH
 6) The AAA Nashville Sounds are carried on
 1590 WDBL-TN
 94.3 WDBL-TN
 in addition to the listed flagship 99.7 WWTN-TN. There may be other stations on the network.
 7) The Madison, WI Muskies were once on 1240 WIBU-WI; I do not know if this station still carries the games.
 8) As for the Colorado Rockies [Major League Baseball]:
 KFXX-FM is at frequency 106.7 according to a May/June game program and is licensed to Hugoton, KS.

Here is a list of 1993 Canadian Football League flagship stations; it comes from "C.F.L. - Facts, Figures, and Records - 1993" via Brian Vernon. I have no network lists except for the Eskimos.

Ottawa Rough Riders	580 CFRA-ON
Toronto Argonauts	1010 CFRB-ON

I have no information on the NFL - flagship stations nor network lists. For major League Baseball, I batted 964 (27 of 28 network lists); let's try to get ALL of the NFL lists this year. Please send me any lists you have. I will

accept them in any form that is readable. If you have access to the Internet, you can send me lists electronically; my Internet address is bsfinkel@anl.gov.
